RAZHA JAMSIK SYAH

BACKEND DEVELOPER

Indonesia, Binjai | (+62)895626199020 | razhajamsiksyah@gmail.com | linkedin.com/in/razha-jamsik-syah-6b5082221/

Profile

I am a 20-year-old, third-semester student majoring in Information Technology and Computer Education at Universitas Negeri Medan. My expertise lies in website development, with proficiency in both Frontend and Backend development. As a dedicated learner, I am actively expanding my knowledge and skills to contribute to innovative projects in the field.

Education

- **University Negeri Medan**
  Information Technology and Computer Education | 2022 – Now

- **SMA NEGERI 1 BINJAI**
  Natural Science | 2017 - 2021

Projects

- **Windows Mini Market Application Project.**
  - User-Friendly Interface: Designed and implemented an intuitive user interface that facilitated easy navigation for both customers and staff.
  - Sales and Transactions: Implemented a seamless sales and transactions module, allowing for the efficient processing of purchases, generating receipts, and maintaining transaction history.
  - Security Features: Integrated security measures to safeguard sensitive information, ensuring data integrity and user privacy.
- **API Based Website Creation Project Country Details.**
  - API Integration: Integrated APIs to fetch real-time data, including demographic information, economic indicators, and cultural insights
  - User Interface Design: Designed an intuitive and visually appealing user interface to enhance user experience. Implemented features for easy navigation and seamless interaction with the displayed country details.
  - Responsive Design: Ensured the website's responsiveness across different devices and screen sizes, allowing users to access information conveniently from desktops, tablets, and smartphones.
- **Windows Application, Media Pembelajaran (MePa).**
  - Multimedia Integration: Incorporated diverse multimedia elements such as videos, images, and interactive simulations to enhance the learning experience and cater to various learning styles.
  - User-Friendly Interface: Designed an intuitive and visually appealing interface, ensuring ease of navigation for users. Prioritized simplicity without compromising the depth and breadth of educational content.

o   Modular Learning Modules: Developed modular learning modules covering different topics, allowing users to navigate through the content at their own pace and revisit specific concepts as needed.
